

**20 YEARS!  
STOP COUNTING CANDLES,  
START COUNTING LIVES:  
ABOLISH FRONTEX**

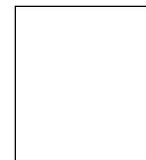

Frontex, for 20 long years you have spread death and insecurity. Your hands are blood-stained, and the EU flag is coloured crimson.

We count and mourn more than 60.620+ deaths caused by the EU border regime since 1993. You are a key actor in the war against people on the move and a symbol for its certain failure.

On your expiry day, we wish for your quick dismantling.

We vow that we won't stop fighting until all borders are broken, all fences torn down, and all walls have crumbled.

Abolish Frontex,  
freedom of movement for all!
